# ALPHABETICAL LIST OF PARISHES WITH RESPECTIVE STATUS UNDER THE PLAN

For most parishes there will be no structural change under the Strategic Plan. No structural changes in schools are announced as a part of the Strategic Plan. Therefore, no schools are listed here. All structural decisions regarding schools will be made by leadership at the individual schools with direction and assistance from the Archdiocese.

### **DEFINITIONS:**

#### PARISH MERGER

Parish merger definition: two or more parish communities merge into one community with one pastor; in each merging relationship there is one parish designated as a receiving parish; the assets and liabilities of a merging parish will be incorporated into the receiving parish (this means that the receiving parish will acquire the church building of any merging parish); Masses will continue to be celebrated at the church building of the merging parish until a decision which contradicts such use is made by the parish pastoral and finance councils of the receiving parish community, in consultation with the Archbishop and the Presbyteral Council; parish mergers are subject to appeal (please see APPEAL OF A PARISH MERGER); mergers will proceed as the capacity to handle them effectively and pastorally allows.

Steve, Parishioner at St. Mathias, Hampton – part of a tri-parish cluster "Be open to the possibilities of change. It isn't about maintaining what you have. It's about growth. That growth is both spiritual and communal. You want to grow your community, and individuals want to grow spiritually. That's what it's all about."

#### PARISH CLUSTER

Parish cluster definition: two or more parishes that share a pastor; clustered parishes may also share some staff and programming; cluster arrangements will not go into effect before June 1, 2011; questions or concerns about cluster arrangements will be addressed at open meetings in each affected parish; parishes in a cluster arrangement retain their parish

status and basic organizational structure; clustering does not necessarily lead to merger of parishes.

#### IDENTIFIED FOR STRUCTURED COLLABORATION

Identified for structured collaboration definition: two or more parishes each with their own pastor that are specifically identified to work in collaboration, i.e.

sharing resources, cooperating on programming, etc.; while all parishes are called into greater collaboration under the Strategic Plan, the parishes in this category are specifically asked to engage in particular cooperation and communication with neighboring parishes; many of these sites may eventually move toward a cluster.

#### **DESIGNATION AS ORATORY**

Designation as oratory definition: an oratory is a worship site established for a particular community or group of the faithful; often, oratories are simply another worship site within a parish; there are some limitations as to what liturgical celebrations can take place in an oratory, for example: all communities are encouraged to participate in Mass on Sundays at the parish church; funerals are only permitted in an oratory with a dispensation from the diocesan bishop; there must be a just cause for a baptism to take place outside of the parish church.

Kathleen,

**Parishioner at** 

Lumen Christi,

Saint Paul -

formed through a

tri-parish merger

Doug, Parishioner at St. Mark , Shakopee part of a consolidated faith formation program "For everything that was hard, it seemed like there was a blessing. There was something we were going to be able to do or be in the new space that we couldn't before."

"I think you've got to keep

an open mind... [Sharing a

program] can strengthen

your faith because of the

strong collaboration that can take place during that

reflect on your own values,

important, and what you

time. It's a nice way to

and what's really

can give up."
